Yingru Li 📞 (086) 13006106862   ✉ szrlee@gmail.com   🌐 https://richardli.xyz/

Interests: Reinforcement Learning, Reasoning & Decision-making, Agents, Data-Centric AI, Mathematics

Education

The Chinese University of Hong Kong, Shenzhen, China — 2025 (expected)
Ph.D. in Computer Science and Information Engineering.
Supervisor: *Zhi-Quan (Tom) Luo*   https://en.wikipedia.org/wiki/Zhi-Quan_Tom_Luo
Thesis Committee: *Hongyuan Zha*, *Xinyun Chen*, *Baoxiang Wang*, *John C.S. Lui*, *Benjamin Van Roy (Stanford & Google DeepMind)*

Huazhong University of Science and Technology, Wuhan, China — 2020
M.S. in Computer Science.
Ranked 1st/134 overall, 1st/26 in Computer Theory and Software specialization.

Huazhong University of Science and Technology, Wuhan, China — 2017
B.E. in Computer Science (Honors Program). Outstanding Graduate.

Professional Experience

Tencent AI & Robotics X, Shenzhen, China — 2019 - 2022
Research Intern in Agent Center
"Data-efficient RL": (1) Participated in a team project on a high-throughput distributed Actor-Learner system for parallel on-policy rollout and stable policy optimization with off-policy data reuse. (2) Lead a long-term research project on scalable exploration for RL in complex environments. Associated outcomes were published in NeurIPS and ICML (View Full Publication List).

SenseTime Research, Peking, China — 2018
Computer Vision Trainee Researcher
Worked on an incremental and continual learning system for multi-label image classification.

Department of Computer Science, Cornell University, Ithaca, NY — 2017
Undergraduate Research Assistant
Worked with John E. Hopcroft on hidden community detection, a novel graph-theoretical concept.

Microsoft Research Lab, Asia — 2016
Research Intern in Theory Center
Worked on influence learning and maximization in social networks.

John Hopcroft Center on Computing Science, Wuhan, China — 2015-2017
Undergraduate Research Assistant
Led a reading group on machine learning and spectral graph theory. Worked on network analysis.

Awards

- **Best Paper Award**, in the 3rd doctoral and postdoctoral Daoyuan academic forum, 2024.
- **Best Student Paper**, in IEEE Sensor Array and Multichannel Signal Processing Workshop, 2024.
- **SRIBD Ph.D. Fellowship** (Gold Class), by Shenzhen Research Institute of Big Data (SRIBD), 2023.
- **Presidential Ph.D. Fellowship**, by The Chinese University of Hong Kong, Shenzhen, 2019–2023.
- **Tencent AI Ph.D. Fellowship**, by Tencent & The Chinese University of Hong Kong, Shenzhen, 2018.
- **Award of Excellence in Internship**, by Microsoft Research Lab, 2016.
- **Qiming Star Award (Selected as one of 5 recipients out of 7,112 undergraduates.)**, by Huazhong University of Science and Technology, 2016. **Reports**: [1] Newspaper. [2] HUST Online.
- **National Scholarship**, by Huazhong University of Science and Technology, 2018.

Awards (continued)

🔖 **First Prize**, in Parallel computation and Application Contest (PAC) held by Intel and CCF, 2015.

🔖 **First Prize**, in China National Mathematics Olympiad (Province-level Math League), 2012.

Selected Oral Presentations

🔖 **GPT-HyperAgent: Adaptive Foundation Models for Online Decisions**
Invited talk in 2024 INFORMS Annual Meeting, Seattle, Oct. 21, 2024.

🔖 **HyperAgent: Advancing Scalable Exploration through Fast Uncertainty Estimation in RL**
Invited talk in International Symposium on Mathematical Programming (ISMP), Montréal, Jul. 25, 2024.

🔖 **HyperAgent: A Simple, Efficient and Scalable RL Framework for Complex Environments**
a.k.a. "Q* meets Thompson Sampling: Scaling up Exploration via HyperAgent"
Invited talk at RLChina.org, Jun. 25, 2024.
Invited talk at Princeton University, May 2, 2024.
Invited talk in INFORMS Optimization Society (IOS) Conference, Rice University, Mar. 23, 2024.
Contributed talk, in the third doctoral and postdoctoral Daoyuan academic forum, Jan. 13, 2024.

🔖 **No-Regret Learning in Unknown Game with Applications**
Invited talk in RL Theory Student Workshop at Nanjing University, Aug. 23, 2022.
Contributed Talk in the second doctoral and postdoctoral Daoyuan academic forum, Aug. 20, 2022.

🔖 **HyperDQN: A Randomized Exploration Method for Deep Reinforcement Learning**
Contributed Talk in NeurIPS Workshop Ecological Theory of Reinforcement Learning, Dec. 14, 2021

Research Statement

My research vision is to develop interactive AI agents that operate reliably and safely in complex, uncertain, dynamic and human-in-the-loop environments. This work necessitates advancements in knowledge and uncertainty representation, exploration, continual adaptation, and decision-making. To achieve these goals, I use and develop fundamental tools in probability, optimization, game theory, and information theory. My methods have been applied to human-AI alignment and reliable, strategic operations. The significance of my work has been recognized through presentations at top-tier conferences (ICML, NeurIPS, ICLR, AISTATS, ISMP, INFORMS), as well as through awards (Best Paper Award at the 2024 Daoyuan Forum, Best Student Paper Award at the 2024 IEEE SAM). For more information, visit https://richardli.xyz/#research.

Theoretically Elegant, Practically Useful
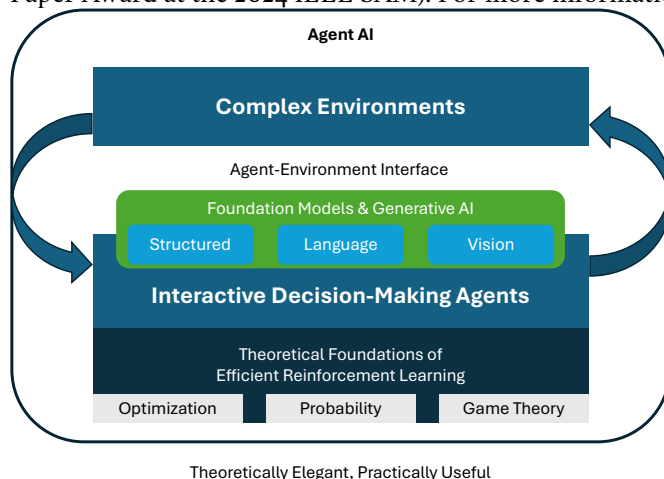

My goal is to contribute fundamental advancements that will enable the creation of AI systems capable of safe, reliable, and beneficial long-term interaction with humans in complex and evolving environments.

Academic Service

- **Reviewer** for Conference on Neural Information Processing Systems (NeurIPS) [12 papers], International Conference on Learning Representations (ICLR) [2 papers]; ICLR Workshop "Bridging the Gap Between Practice and Theory in Deep Learning" (2 papers), ICML Workshop "Aligning Reinforcement Learning Experimentalists and Theorists" (2 papers).
- **Chair** for RL Seminar in The Chinese University of Hong Kong, Shenzhen, China (Spring 2019, Summer 2020, Fall 2020, Spring 2021, Summer 2021, Fall 2021, Spring 2022, Fall 2022.); for 2 sessions in INFORMS Annual Meeting 2024 on "Integrating Generative AI with Sequential Decision-making".

Teaching

Stochastic Processes (STA/DDA4001)	Fall 2018
Optimization II (MAT3220)	Spring 2019
Distributed and Parallel Computing (CSC4005)	Fall 2019
Reinforcement Learning (DDA6105/CIE6023)	Fall 2020
Matrix Analysis (CIE6002)	Spring 2021
Deep Learning and Their Applications (MDS6224)	Spring 2022

My teaching duties include delivering weekly tutorials, correcting assignments, and running laboratory sessions when required, **all in English**.

Beyond Academia

I enjoy photography. I often play tennis and swim, and occasionally play golf. These activities allow me to live in the moment and help me find physical and spiritual freedom.
